Subject: Mineral Creek

Hi Brent –

I'm working with Dan Wall and others here at EPA on sampling plans for the Upper Animas Mining District. EPA has not collected much data from Mineral Creek and we are currently designing a sampling plan for Mineral Creek to aid our understanding of the area. Dan and his team are planning to collect samples in the Animas in a couple of weeks and we're hopeful to build on that sampling event. Dan suggested that you would be a good resource to discuss the key sources of contamination within Mineral Creek. If so, would you be willing to meet with me to discuss Mineral Creek specifically?

Thanks Brent,

Rob
